# Innovate with C.A.R.E. Profile®

Helping People Work More Effectively in Teams

Enhance  
individual and  
team performance  
for maximum  
results.

Successful team members don't do the same thing at the same time. They do the right thing at the right time. And while team members work together toward a common goal, individuals still must play their separate parts in the process.

As organizations rely more and more on teams to innovate, problem-solve, produce, and compete at the speed of change, understanding and capitalizing on individual approaches to group processes is the bottom line on creating high performance teams.

## Discover the Right Roles for the Right People

The *Innovate with C.A.R.E. Profile*® is a unique, self-directed learning instrument that helps individuals work from their strengths by identifying their most natural team role. This awareness also helps team members value the contributions of others. The five C.A.R.E. roles include:

**Creator:** Generates fresh ideas and original concepts. Goes beyond the obvious and sees the "big picture." Adds spontaneity, excitement, and energy to the brainstorming process. Recognizes alternatives. Is willing to solve problems.

**Advancer:** Recognizes new ideas in the early stages and develops ways to promote and move ideas toward implementation. Uses insightful planning and past experience to guide success. Energetically supports team objectives. Uses the most efficient method to achieve objectives.

**Refiner:** Challenges concepts and ideas, often playing "devil's advocate." Methodically analyzes ideas to uncover potential problems and suggest solutions. Is detail-oriented and analytical. Acts as a practical sounding board for new ideas.

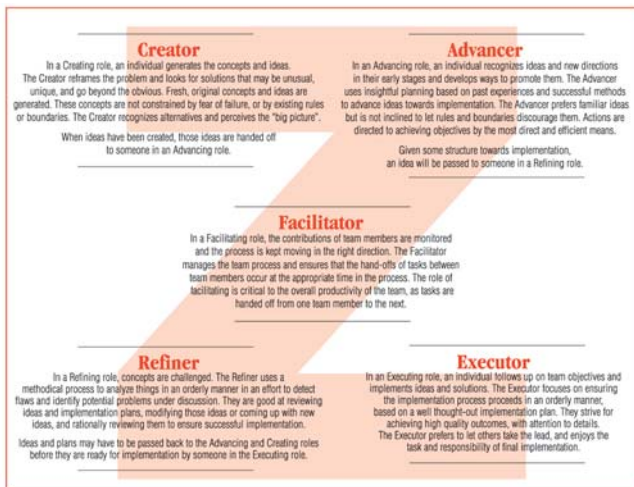

**Executor:** Lays the groundwork for implementation, paying attention to details and striving for quality outcomes. Is willing to execute ideas. Follows directions thoroughly to complete tasks and projects. Identifies flaws early in the process.

**Facilitator:** Monitors the contributions of all team members and makes sure tasks are handed off at the right time in the process. Negotiates with all types of people. Identifies what is missing in the process and keeps things moving. Offers suggestions on how to improve the process.

## “Z Process” Keeps Teams Moving in the Right Direction

The *Innovate with C.A.R.E. Profile*<sup>®</sup> uses the “Z Process” to map the flow of assigning roles, completing tasks, and handing off tasks to other team members. In this relay process, tasks are passed from Creators to Advancers, from Advancers to Refiners, and from Refiners to Executors. Facilitators make sure the handoffs are made at the right time.
